Recovery Oriented System of Care
Franklin County Services

- Prevention and Community Education
- Healthcare and Risk Reduction
- Treatment and Supports
- First Responders and Law Enforcement
- Recovery and Community Engagement
Community Involvement

• Planning prevention events in areas and neighborhoods throughout the county
• Working with our organizations on aging to meet seniors where they are
• Connecting the faith community with treatment providers
• Working with colleges and universities on prevention strategies
• Presenting the plan and our work to various coalitions, associations, and community groups
Barriers to Treatment

• Time
• Accessibility
• Financial constraints
• Stigma

The Impact of Substance Use Disorder

• Health issues
  • Hep C
  • HIV

• Neonatal abstinence syndrome

• Financial

• Family

• Criminal Justice involvement

Columbus Public Health

Victimization

• Columbus police target men buying sex; Sting nets wide range of suspects

• 115 deaths in a year paint grim picture of domestic violence in Ohio

Victimization

Post Traumatic Stress Disorder: emotional and physical reaction resulting from the memories of a traumatic event or experience, and the shattered sense of personal safety.

Victimization

PTSD Statistics

70% of adults in the U.S. have experienced some type of traumatic event at least once in their lives. This equates to approximately 223.4 million people.

Up to 20% of these people go on to develop PTSD. As of today, that equates to approximately 44.7 million people who were or are struggling with PTSD.

An estimated 8% of Americans – 24.4 million people – have PTSD at any given time. That is equal to the total population of Texas.

An estimated one out of every nine women develops PTSD, making them about twice as likely as men.

Addiction and Victimization

• Substance use:
  • can lessen the intensity of pain or trauma brought on by a crime
  • may be used to keep person engaged in the cycle of further victimization (e.g., human trafficking)

Center for Substance Abuse Treatment [CSAT] 1997
Office of Justice Programs, Office for Victims of Crime
Locations of Potential Human Trafficking Cases in the U.S.

This map only reflects cases where the location of the potential trafficking was known. Some cases may involve more than one location.
Human Trafficking

- Detox
- Long term addiction treatment
- Identification
- Safe Housing

CATCH Court
Franklin County Municipal Court

CATCH Court exists to break the cycle of abuse for victims of human trafficking, prostitution, and sexual exploitation by providing resources, community, and accountability.

Domestic Violence

Definition:

(A) No person shall knowingly cause or attempt to cause physical harm to a family or household member.

(B) No person shall recklessly cause serious physical harm to a family or household member.

(C) No person, by threat of force, shall knowingly cause a family or household member to believe that the offender will cause imminent physical harm to the family or household member.
Domestic abuse against female partners was 2 to 4 times higher among men with alcohol problems than among other men.

47% of domestic assaults occurred after substance use compared to 31% of non-domestic assaults.
