2018 Opiate Conference
June 11, 2018
Today’s Agenda

• Medicaid expansion
• Recovery housing
• Peer supports
• Criminal justice initiatives
• 21st Century Cures Act
• Workforce development
• Trauma-Informed Care
Medicaid Expansion has been key for Ohio

- Since 2014, more than 630,000 Ohioans who obtained health care coverage through the expansion have received at least one mental health and/or addiction treatment service
- Ohio redirected resources to address other, non-Medicaid reimbursable gaps in the continuum of care
Since SFY 15, we have added 698 recovery housing beds across 13 counties with an OhioMHAS capital investment of $12.25M dollars
Peer Support

- 1,800 peers have trained to become peer supporters
- MHAS is working with external stakeholders to improve certification and training processes
Addiction Treatment Program:
• We have expanded to 54 counties throughout Ohio
• 97 dockets are participating
Specialized Docket Subsidy:

• For State Fiscal Year 2018, OhioMHAS distributed approximately $5 million dollars to specialized dockets that target offenders with drug addiction

• A total of 138 specialized dockets received funding through this project

• The average award was $35,869
Community Transition Program:

- 4,680 enrolled members since July 2016
- 492 members who have received housing benefits
- Coverage in 73 Ohio Counties
- 77 agency partners
Opiate Epidemic & Federal $$

- 21st Century Cures Act: $26 million/year for 2 years
  - MAT workforce development
  - Treatment & recovery support – 47 counties
  - Primary prevention
  - SBIRT
  - Secondary trauma amongst first responders
  - Drug take back
- **NEWLY ANNOUNCED** $1B in funding for states to apply for, including 15% set-aside for hardest-hit states (Ohio among them).
Year 1 Successes:

• Linking patients to treatment through expanding and developing connections between first responders, peers, emergency rooms, treatment providers, primary care physicians, and housing providers while engaging with court systems and criminal justice staff to ensure access to MAT in all forms created successful projects that met the goal of engaging more patients in MAT and sustaining recovery.
Medication-Assisted Treatment Expansion:
• 30 trainings were held in the first year that trained 687 physicians, advanced nurse practitioners, physician assistants, residents, and other prescribing professionals
• 355 additional people receiving a DATA 2000 waiver to prescribe buprenorphine/Suboxone
• 20 organizations want trainings for next year
Medication-Assisted Treatment Expansion:

- Year 2 includes 25 trainings for medical professionals to obtain their DATA 2000 waiver
- 10 grants are also being offered to medical institutions to develop their own DATA 2000 trainings for medical residents and faculty beyond the duration of the Cures grant
- Curricula will be developed and hosted through the MHAS eBased Academy
Each county ADAMH board will receive $24,800 for the expansion of evidence-based prevention and prevention programming in schools.

Key Focus Areas

Cures Act Tier 1:
- 20 Counties,
- 15 Board areas

Cures Act Tier 2:
- 27 Counties,
- 12 Board areas

MAT-PDOA:
- 17 Counties,
- 9 Board areas
Workforce Development

• $6M from the 18/19 budget for providers to invest in and strengthen their workforce. Applications for up to $100,000 were accepted on a first-come, first-serve basis

• 41 providers have used $4M for the first year and an additional 21 providers will receive $2M in the second
Trauma Informed Care

- To date, more than 13,000 Ohioans have been trained
- Fifth annual Summit held in May
- Ohio Peace Officers Training Academy includes trauma in its curriculum
- This training investment is being put to use regularly throughout our state
- Emerging area of focus: vicarious trauma related to opiate epidemic
• Developing a First-responder Incident Response Support Training (FIRST) mobile application to provide resources and self-support tools to mitigate the impact of vicarious trauma in first responders

• The Ohio ASSIST program is developing a 3-day Post Critical Incident Seminar designed to allow first responders and support persons to effectively and in a healthy way deal with traumas and stress of public safety from a specific incident or accumulative effects of multiple incidents
First Responders Appreciation Week

Thank you to our first responders!

Thank you, Madam or Sir, for keeping me safe.

I am a child of a responder and appreciate your bravery. Put on the back.

Bringing Help, Bringing Hope. Thank You!

Week of Appreciation April 9-15, 2018

MENTOR FIRE RESCUE

1152
What can we do?

- Talk to children about drugs
- Help children build resiliency
- Clean out your medicine cabinet
- Delay/eliminate exposure to any drug of abuse (Tobacco, alcohol, marijuana, opiates)
- Work with your doctor on effective and low-risk pain management
- Be part of a comprehensive community response
  - What does each of us have to offer?
- Understand that addiction is a chronic, relapsing disease, & relapse is part of the illness – not a failure

FIGHT STIGMA!
