Greetings Ohio SOR and MATPDOA Project participants,

The project leads have received many inquiries regarding the ability to conduct the Government Performance and Results Act (GPRA) remotely. After discussion with our Project Officer at SAMHSA, we are now able to grant that request. Remote GPRA may be done via telephone, telemedicine, video, etc.

Please continue to conduct GPRA within the 48-72-hour window for first contact. This is essential to provide an accurate picture of what local communities are experiencing.

You must continue to request consent for participants prior to conducting the GPRA by reading the Wright State University consent in its entirety. Then indicate on the consent form that the participant provided verbal consent and date the request.

Once face-to-face contact resumes, please ensure an updated consent form is signed by the participant as soon as possible.

Thank you for your hard work bringing services to those in our communities who need them most.

All my best,

Ellen Augspurger
